

Questions and answers to the REFERENCE: IT- 2018-1-supply-vehicles

Question: I would kindly ask you clarification regarding lot 1 of this tender. Could you kindly confirm, that the dimensions of the required vehicles are as indicated in document:

“Length 4000 – 4200 mm (Cabin)

Width 1700 – 1900 mm

Height 1700 – 2000 mm

Wheelbase 2200 – 2500 mm (Cabin)

Ground Clearance more than 230 mm”

The question has arisen since on the tender platform DZO in Ukrainian language it is stated that wheelbase is to be 2750 mm and since requirements above are not very typical for these kind vehicles.

Answer: Thank you for your interest in our tender for the procurement of vehicles.

To answer your question: the correct dimensions of the required vehicles are as stated in the English version of the document (both name and Technical Specification of the Tender dossier) which are 2200-2500 mm wheelbase. Thank you for pointing out the discrepancy which we have already corrected on zakupki.prom.ua site.

You can also check the status of this tender as well as any other open procurements on our website: www.snpa.in.ua in the section of Tenders and Quick start measures (QSM).

We are looking forward to receiving your quotations. Please note that for this tender you should submit the original and copies of your quotations in sealed enveloped to the address indicated in the tender dossier.
