

**Clarification questions/answers from pre-selected applicants for the LCB of the Procurement of Vehicles (Ref.# LCB - 2020 - 1- supply-vehicles ) of the Project “Support to Nature Protected Areas in Ukraine” (BMZ-Nr. 2011.6612.3 and 2013.6588.1)**

<b>Question</b>	<b>Answer</b>
For Lot1	
Could you clarify regarding the exterior "steel protective grille with built-in daytime running lights". This is not a factory accessory but a tuning element which can be installed on the car only after registration of the car, as this changes the external dimensions of the existing car which is a violation of technical characteristics (overall dimensions). How to proceed with this requirement?	This accessory shall not be put on all cars (number will be defined in the contract) and it can be put after the cars are registered by the proposed dealer. If there are extra costs involved, please budget them in the foreseen budget table.
From which year should the requirement EuroNCAP be available?	The latest test result available is the one that counts.
The section "functionality" indicates the mandatory presence in the car AM / FM radio. Our proposed modification of the vehicle does not have a radio factory performance.	Please offer as you can and the evaluation committee will then elaborate this.
How critical is the specified marking of tires LT265 / 70R16 121 / 118S Silverstone x Treme? Is it possible to use analogues?	This set of tires is only for one car and alternative options can be offered.
What does "internal ... towing hooks" mean?	With a pick up there are usually inner hooks or similar mechanisms where one can fix goods.
Can you please clarify several issues on the hard top for the loading platform: - what is "double door unlocking"? - "built-in LED brake light" – is it a mandatory element? - "double gas racks" - where should they be used? - "double-glazed windows with a gas spring" – is it a principled position?	Please offer the hard top as you can and the evaluation committee will then elaborate this.
Should the warranty be only 60 months not 36 months?	Please offer as you can and the evaluation committee will then elaborate this.
The spare kit indicates the presence of brake pads, is it front or rear?	Both, front and rear.
A set of tools from 26 positions – should all be original, is an analogue possible?	The number is 50 in the specification and it doesn't say that the these shall be of original brand but of “professional quality”, see the specifications.
In the Technical Specification in the request for the torque states - 340 - 390Nm, can it be higher?	Please offer as you can and the evaluation committee will then elaborate this.
The "Functionality" section requires an AUX connector, can the alternative connection to the car audio system be offered?	Please offer as you can and the evaluation committee will then elaborate this.
